CDS Technology

CDS (Convertible Display Systems) is patented technology from Cincoze, which is a revolutionary panel PC solution that offers features of modular design, configured on demand, scalability, transformability and Plug & Play.

CFM Technology

CFM (Control Function Module) is a technology created by Cincoze, it enables function enhancement by adding specific function daughter board. CFM Technology allows P2002E to support PoE and IGN function for various applications.

Instant Reboot

P2002E supports 0.2 second instant reboot for critical application.

SuperCap

SuperCap is extremely high volume capacitor, which can be recharged automatically when power is connected (without power Min. 50 days/Max. 70 days), you never need to change CMOS battery, and it makes P2002E a truly reliable and maintenance-free system.
