

800 °C
30 mins
100% Integrity

Data recorded before and after burning test shows 100% match in comparison

Fire Shield SSD

Capable of handling harsh environmental challenges from the in-vehicle, transportation, aerospace and defense sectors.

■ Absolute Protection

Innodisk Fire Shield SSD is forged in the most critical environments and through the strictest testing. It is easily integrated into any architecture with top-standard robustness requirements.

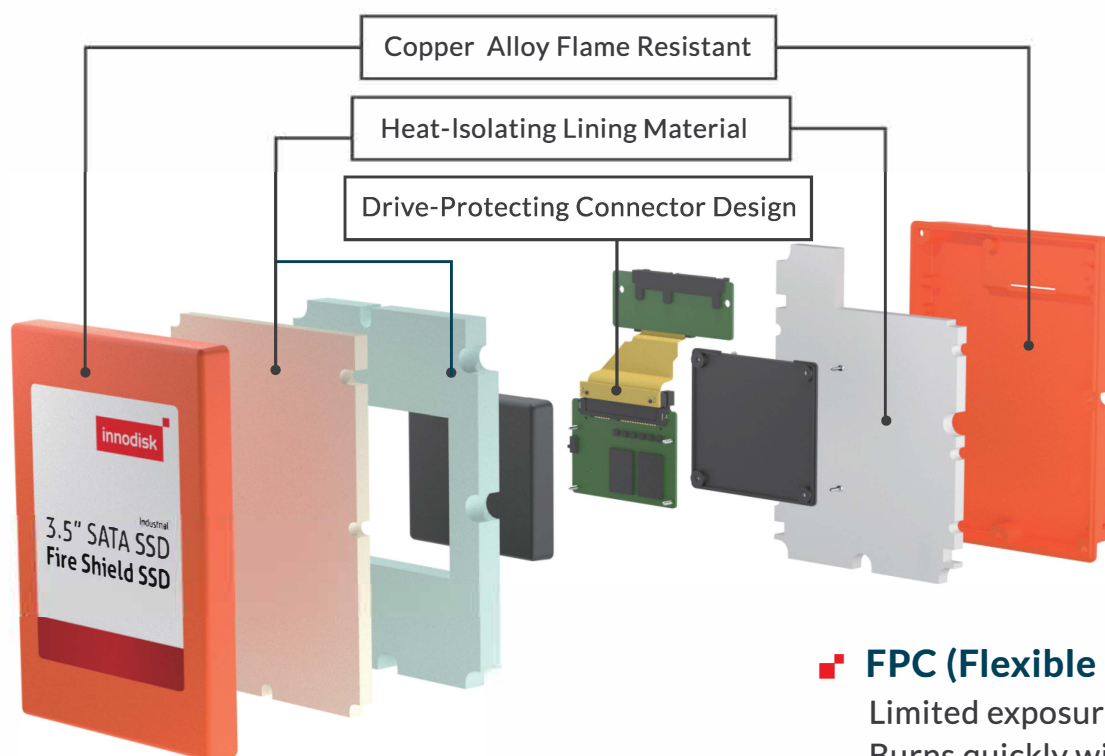

■ Mechanism Design

Withstands up to **800°C** for **30mins**
Top degree of fire resistance

■ Spec

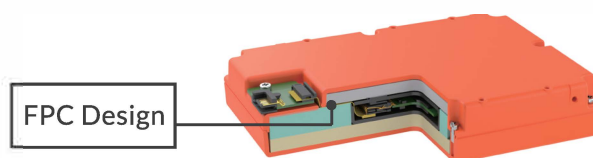

Up to 128GB SLC / iSLC Drive
Dimension: 3.5" Standard HDD Classis

■ Triple Protection

■ FPC (Flexible Printed Circuit)

Limited exposure during fire
Burns quickly with low heat

■ Features

Fire Proof

100% Fire Resistant

Anti-Shock

Withstands heavy
shock and vibration

Multi-Protection

Triple layers of protection

High Performance

SLC/iSLC Solution
